August and September Newsletter:

Welcome new and returning families to the 2025-2026 school year!

Center wide we will be working with the students about emotions, problem solving, opposites, patterns and families through developmentally appropriate practices. Although we will be focusing on the same concepts they will look different in each classroom. The main focus for the beginning of the school year will be ensuring all children feel welcome and comfortable in their new environments to support their growth and development. We as teachers will be using this time to get to know your child as well as you (the families) to have a better understanding of your expectations and child's strengths that will help us to create a bridge of open communication.

Please bring in a family picture to be posted in your child's classroom.
